

Smart supply  
chain solutions

# Backed by a world-class organization

Pakistan Wings is an emerging logistic solution provider with complete range of in house services. Pakistan Wings offers flexible, solutions to customers backed by leading global brands such as Linde, Honda Atlas, HIT, Kixx Oil, Haier, & others.

Established in 2016, by team of professionals expert in Procurement, Sourcing, Projects, Bonded movements, Import freight & customs clearing services having client both in Corporate and Govt. Organizations

Having associates in all countries of the world With a proven track record of long-term relationships with global principals and customers, Pakistan Wings is equipped to develop and grow businesses in multiple geographies, including challenging territories with high growth prospects.

# Driven to deliver exceptional results

Combining a smart approach with innovative thinking and supply chain foresight, we design, implement, manage and operate smart supply chain solutions that grow our clients' bottom lines.

Smart Partnerships form the cornerstone of creating a competitive advantage for our clients. Not only do they enable us to create truly customised supply chain solutions, but a culture of collaboration and accountability. Through partnerships with key industry players, Barloworld Logistics has developed numerous inhouse and world-class competencies and received many industry and supplier accolades and awards.

As an international provider of smart logistic solutions, Pakistan Wings focus on specific industries enables us to create depth of experience and invaluable expertise within the chosen sectors. We are then able to leverage this knowledge for the benefit of our clients.

Pakistan Wings is not only focused on making profits and performing at our peak. We are committed to creating sustainable opportunities that benefit us individually, as a company, the communities in which we operate, and the environment.

“The technological revolution accelerated globalisation, which in turn created a dynamically changing world that is increasingly challenging, competitive, complex and customised. With the speed of change today, a competitive advantage is short lived.

If a company is not planning ahead with its next innovation, it is already behind the curve. Supply chains need to be agile, flexible and responsive to provide the results companies need to achieve sustainable growth.”

# Smart Logistic & supply chain solutions

Innovation sits at the heart of smart logistic solutions. Solutions that exceed expectations and deliver on our promise. Thinking out the box, breaking down barriers and pushing boundaries is our way. We identify hidden problems by knowing what to look for and where to find them. We then transform the right possibilities into profitable opportunities.

## STRATEGY & CONSULTING

Equipping you with the big picture, we identify what's working, what isn't and what can be optimised for operational efficiency. Using a variety of tools and methodologies, including sophisticated modelling and scenario planning, we apply our analytical skills to uncover potential complications and profitable prospects.

## WAREHOUSING & DISTRIBUTION

We design, implement, manage and operate Warehousing and Distribution solutions that are tailored to deliver bottom line benefits. Big or small, streamlined seamless solutions are our ultimate goal. Designed for today but with the future in mind, our customised solutions include cross-docking, racking, shelving, pick-and-pack, and track and trace capabilities.

### TRANSPORT MANAGEMENT SERVICES

Our managed transport solution not only reduces costs and risk but increases supply chain integration, service levels, visibility and flexibility. Geared to optimise distribution networks, we have a proven track-record of reducing transportation costs by 15-20%. By combining route optimisation, supplier procurement, transport expertise and business intelligence with dedicated management processes, we transform your network into a competitive advantage.

### ROAD TRANSPORT SOLUTIONS

With an exemplary track record in operating large complex fleets, Pakistan Wings transport Solutions has the size, strength and expertise to deliver flexible, optimised and sustainable transport solutions. Solutions that range from general and bulk freight (contracted and line haul) to specialised transportation of oil, gas, chemicals, timber and abnormal loads. Service excellence, innovation, advanced fleet management capabilities and international standards of safety, governance and risk management are what set us apart.

### FREIGHT FORWARDING

Represented in more than 300 offices in over 100 countries, from the Far East, through the Middle East, into Europe and Africa, we have a comprehensive understanding of local and international markets, customs requirements and excise laws.

Solutions underpinned by international standards of safety, governance and risk management.
